

Bespoke Furniture and Fittings

by Coulson Joinery

Coulson Joinery specialise in producing quality bespoke joinery for architects, builders and individual clients. If it is made from timber then at some point over the many years of producing high class joinery, we have probably made it.

Our team of skilled joiners are renowned for their quality and attention to detail and we are proud of our ability to produce architectural joinery to the highest of standards.

Our in-house spraying facility ensures we can provide a prefinished product if required.

Experienced installation teams are available to offer a full supply and fix service.
